

TechOps Engineer

Location: Los Angeles, CA

To apply please send your resume, with the **email subject of Ops 2001**, to careers@telescope.tv

Job Description

We are looking for a bright, well-rounded individual with a keen attention to detail and the ability to rapidly grasp new concepts. The ideal candidate will be a self-described “Jack of All Trades,” able to work on systems, networks, databases and super user mentality to finish high priority projects in a timely fashion. Telescope is a small company which is growing rapidly with huge growth potential for skills and projects.

Skills & Requirements

Minimum Qualifications

- 2+ years of any systems and/or networks
- Understanding technology from the OS, TCP/IP, and SQL perspective
- Basic Linux understanding
- Knowledge of at least one scripting language (Bash, Shell, Python)
- Excellent communication skills and potential to interact directly with clients
- Excellent attention to detail

Preferred Qualifications

- Ability to create SQL queries for analysis and reporting
- Ability to program in at least one language proficiently: Python preferred
- Ability to be on call when necessary and work hours to meet client live show demands
- Ability to support client issues from an operations and technical perspective
- Experience with debugging complex problems through configuration files, logs, and code pieces to determine source of failure

Perks

- 16 paid days off per year
- Most national holidays paid per year
- Comprehensive medical, dental, vision, life insurance, and 401k (up to 100% of 6%)
- Occasional catered lunch
- Free parking (or stipend depending on location)
- Partially paid cell phone coverage
- Fully stocked kitchen with snacks, drinks, and Starbucks coffee
- Holiday parties for all employees
- Casual work attire

Current project examples:

- Build business logic for voting applications and directly support the world's largest live shows such as: The Voice, American Idol, Dancing with the Stars
- Be constantly involved in support of software usability and functionality of our Connect platform products for all clients.

About Telescope

The work environment at Telescope is exciting, engaging, and constantly dynamic. We have major media clients who depend on us year over year to deliver amazing products and support their live TV vote shows. We also have close partnerships with social networks such as: Facebook, Twitter and Instagram to which we deliver fan engagement products.

Telescope Inc. has been responsible for the most successful television and live media participation shows in the last decade: *American Idol*, *The Voice*, *Dancing with the Stars*, *So You Think You Can Dance*, *AMA*, *VMA*. We also work with Coca Cola, NASA, Project Greenlight, and others. We create the software that handles all parts of the voting, and now we are going after social as well. We work with massive scale, big data, and cutting edge technology. Our technical environment is full of passionate employees who enjoy what they do every day.

Telescope Inc. is an equal opportunity employer which does **not** discriminate against: race, color, religion, national origin, age, sex, pregnancy, citizenship, familial status, disability, veterans, or any other protected class.
